Enough is enough. Move onto putting illegal aliens, terrorists, and real criminals in prison. Remember when DOS was the operating system for personal computers? Nobody but Microsoft moved us past those days. Tell the cry babies to produce software that people will buy. Seems like you guys are being used as a tool to destroy one of the most successful AMERICAN companies EVER!!!! As a United States citizen, Microsoft user and owner of Microsoft stock, I am ashamed that you are allowing a bunch of sore losers use the United States Justice Department to destroy innovation. Why don't you tell the jerks to go out and try to beat Microsoft in the marketplace. After all, never has any value been created by a bunch of lawyers in a courtroom. Thank You.
